

Tim Berners-Lee

Inventor of HTML

Tim Berners Lee is the **Inventor** of the web. In 1989, Tim was working in a computing services section of CERN when he came up with the concept; at the time he had no idea that it would be implemented such an **enormous scale**.

His favorite movies

2001-Space Odyssey

Humanity finds a mysterious, obviously artificial, object buried beneath the lunar surface and, with the intelligent computer Hal 9000, sets off a quest.

Monsieur Hulot

Monsieur Hulot comes to beachside hotel for a vacation, where he accidentally (by good naturedly) causes havoc.

Alien

The commercial vessel Nostromo receives a distress call from an unexplored planet. After searching for survivors, the crew heads home only to realize that a deadly bioform has joined them.
